

Nat Iyer

Engagement and Implementation Manager

Accomplished Analytics professional with over 20 years of expertise in delivering solutions involving business development, customer management, business requirements, analytics & reporting and project management. Nat leads customer engagements, directing and coordinating team members to deliver the objectives for business initiatives and projects, including training and mentoring of staff. Nat specialises in risk, compliance, regulatory reporting, and data governance.

Nat is a problem solver, thinking outside the box to determine cost beneficial solutions while working collaboratively and minimising the customer's risk profile.

Throughout his career, Nat has held senior executive positions, including Director-APJ for HP Autonomy and Vertica business units, General Manager for Teradata's South-east Asia region, and a Managing Partner, leading the analytics delivery practice.

Nat is bringing CorProfit's solutions to customer segments including Banking/Financial Services, Airlines, Telecommunications, Government, Mining, Manufacturing, Construction and Petrochemical Industries across the Asia Pacific region.
